RICHARD RYBAK

BUSINESS MANAGEMENT & ENTREPRENEURSHIP STUDENT

Entrepreneurship-minded student and founder, building a foundation in business analysis and data-informed decision-making through academic work, independent projects, and hands-on venture building. Currently studying Business Management & Entrepreneurship at CODE University of Applied Sciences. I value clarity, structure, and follow-through — I like understanding the “why” behind outcomes, not just the results, and I bring a calm, disciplined, execution-focused approach to everything I work on.

EXPERIENCE

Data Analysis, Marketing & Project Management 2025 – Present
AI:Dental

Own digital marketing end to end — Meta & Google Ads, content, and social strategy — while organizing and validating clinical datasets used for AI training. Built and run the company's Microsoft Planner workflow, coordinating cross-team delivery.

Co-Founder & Organizer 2022 – 2024
SPARX Startup Conference

Co-founded and led a regional student startup event with 400+ attendees and 20+ teams. Owned strategy, logistics, budgeting, promotion, and speaker coordination, and co-moderated the main program.

Customer Experience & Product Concept 2025
Martinus

Led customer journey mapping and pain-point research for a major Slovak bookstore, then proposed a brand-specific community platform concept, defining user roles and interaction mechanics through a working prototype.

Job Shadowing Program 2024 – 2025
DXC Technology

Observed enterprise analytics, digital transformation initiatives, and agile workflows inside an IT consulting environment.

PROJECTS

Crowdfunding Campaign 2023
Co-led a crowdfunding awareness campaign built on storytelling and audience targeting, raising over 200% of the funding goal.

Power BI Reporting

Built interactive dashboards and reports, defining KPIs and translating raw data into decision-ready insights for student projects.

ATHLETICS

Competitive Basketball 8 years
Played basketball at a semi-pro level for eight years. Built discipline, resilience, and the ability to perform under pressure.
